**SPEAKER: Kristin Harmel**

Kristin Harmel is a *New York Times* and a *USA Today* best-selling author. She has written over a dozen novels that have been translated into 28 languages and sold all over the world.

Harmel will speak on her latest heart-wrenching and suspenseful novel, *The Forest of Vanishing Stars*, an evocative coming-of-age World War II story about a young woman who uses her knowledge of the wilderness to help Jewish refugees escape the Nazis-until a secret from her past threatens everything.

Inspired by real groups of Jewish refugees who hid in the forests to escape persecution during World War II, Harmel incorporated historical events in her novel, including what the forest refugees actually ate, the way they sheltered, and the way they fought back.
